FOR MORE KILLED IN CUBA RIOT

HAVANA, Sept. 28.—Four persons were killed and at least five wounded when soldiers opened fire today on communists marching in a demonstration in Cuba in honor of Julio Antonio Mella, slain student communist leader.

HAVANA, Sept. 28.—Shooting began along the Prado boulevard today as communists started a march in honor of Julio Antonio Mella, slain student communist leader.

A company of soldiers stopped communists who were working on an obelisk reared in Cuba's centrally located fraternity park as a burial place of Mella's ashes. The soldiers confiscated the workers' tools.

At least one person was wounded as the firing continued from soldiers among the several hundred guarding the streets where thousands paraded from anti-imperialist league headquarters along Havana's principal streets.

Few private automobiles ventured on the streets, communists stopping those motorists who did appear to ask what right they had to be out.

Candidate For Mayor New York

JOSEPH V. MCKEE, who announced his candidacy for mayor of New York City today setting at rest one of the most vigorously played guessing games that has struck political circles in Gotham.

Dr. McKee declared, Japan still remained in occupation of Manchuria and Jehol province, despite article 21 of the League of Nations Covenant, which forbade the use of force in international relations.

Dr. McKee, former Chinese foreign minister, was speaking, reports were received from Tokyo that military leaders were taking an army appropriation of \$17,000,000, the largest in history, for the 1934-35 budget including nearly \$8,000,000 for new materials.

PREDICT WAR IN FAR EAST

By GEORGE HAMILTON
Canadian Press Staff Writer

GENEVA, Sept. 28.—In quiet tones, Wellington, chief Chinese delegate to the League of Nations Assembly, today predicted war in the far east.

The assembly was continuing debate on the year's work. Ko, while praising the league's technical accomplishments, described the year as one of disillusion. Japan, despite the decision of the assembly, has been permitted to violate with impunity the League Covenant, the Kellogg pact and the nine-power treaty of Washington in the campaign to Manchuria and northern China, he declared.

Ever and Dr. Ko, former Chinese foreign minister, was speaking, reports were received from Tokyo that military leaders were taking an army appropriation of \$17,000,000, the largest in history, for the 1934-35 budget including nearly \$8,000,000 for new materials.

Veterans of two historic making "round-the-world flights, without serious mishap, Wiley Post's famous Winnie Mae is shown here after it crashed into trees near Quincy, Ill., when the engine failed.

The plane was damaged almost beyond repair. The left wing, shrouded off, lies in the foreground. Post was not seriously injured.

PROTEST AGAINST SEGREGATION WAGE CUTS

MONTEREAL, Sept. 28.—Officials of the railway running trades union notified the Canadian Pacific and the Canadian National Railways their 35,000 members had granted the general council of the five unions power to call a strike against the second 10 per cent wage wage cut made by the railways.

George Lodge, director of personnel for the Canadian Pacific Railway, who is acting for both railway companies in negotiations with the running trade, confirmed the statement. He said no immediate action was anticipated but it was too early to make any comment on the situation.

As far as could be learned about the dispute between the unions and the railways, a strike will not necessarily follow. Appearances were that further negotiations between the railways and the union might be carried on before a final strike is called.

CO-OPERATION QUESTION

Another question which appeared likely to be automatically resolved by the union was the co-operation of the unions with the railway companies. The unions were not necessarily hostile. Appearances were that further negotiations between the railways and the union might be carried on before a final strike is called.

Strike Ties Up All Business

HAVANA, Sept. 28.—Virtually all business in Havana was tied up today by a general strike called by communists in honor of Julio Antonio Mella, slain student communist leader who was killed in Mexico.

Banks remained open and the railway operated, but the strike was almost 100 per cent effective. The strike was called by communists in honor of Julio Antonio Mella, slain student communist leader who was killed in Mexico.

SWIFT PLANT CLOSED DOWN AT STRATFORD

STRAITFORD, Ont., Sept. 28.—All live chickens were removed from the plant of the Swift Canadian Company, workers who had assisted in their removal were taken out and the plant was closed early this afternoon. A carload of the chickens was pulled out a siding alongside the plant without incident, and the men were taken back in a truck as soon as the car moved.

A heavy police guard was on duty. Pickets blocked and jelled but there was no violence from strikers who walked out demanding an increase in the rate for chicken picking.

NO DISORDER

The closing was carried out without outward incident in contrast to the closing of the Swift plant at Stratford, Ont., where strikers made determined efforts to enter the plant. On that occasion, a crowd of about 500 men, some were armed with stones and bricks, and the men were taken back in a truck as soon as the car moved.

BLOCKADE OF SIX CARS BULK APPLES

KELowna Fruit Growers Prevent Shipment in Contravention of Pact

KELowna, B.C., Sept. 28.—W. E. Hawkins, president of British Columbia Fruit Growers' Association, announced today an injunction was issued against the shipment of bulk cartons of McIntosh apples from Kelowna. The injunction was given assurance that no such shipments would be sent out without information first being given to the fruit growers' committee, he said.

Fruit growers who had assembled here when reports first appeared that a bulk carload of McIntosh apples, destined for London, was being shipped, were told that the injunction was made, they were dispersed, weary from an all-night vigil they maintained to ensure that no such shipment would be observed.

KELowna, B.C., Sept. 28.—Some 100 men, women and children of Kelowna, B.C., today blocked the railway tracks through last night and early this morning, protesting their recently won fight for better fruit prices.

The engine, unable to proceed because of the blocked tracks, was held up for several hours, and was then to pick up six cars.

MCKEE TO RUN FOR MAYOR IN CITY OF

NEW YORK, Sept. 28.—Joseph V. McKee announced his candidacy today for mayor of New York City. His announcement, handed out by Charles Keegan, his associate, set at rest one of the most vigorously played guessing games that has struck New York political circles.

McKee will run as an independent Democrat against Mayor La Guardia, independent Republican running under the fusion banner, and Mayor John F. O'Brien, the candidate of Tammany Hall.

"ANTI-REDS" STAGE BLOT IN MONTREAL

MONTREAL, Sept. 28.—North-end Montreal had fested an hour of anti-reds today, when a mob of all ages and both sexes met and held a demonstration of hostility to Communism that prevented a "Communist Conference" from being held here.

The mob, which was prevented, bloodshed and property damage.

Milling and shouting, the mob apparently unorganized and spontaneous origin, advanced on a small hall on St. Touche street, broke up the conference.

OUR PLACE IN HISTORY

One speculative commentator wonders what the historians of 2000 years hence will look back over this period of "gravest and most enduring depression," will discover to have been the "keynote" of the present generation.

Stupidity, probably. That is only a guess, of course, but guessing is free and one guess is about as good as another in the circumstances. And could we really blame him?

With one-third of the people of Canada on short rations because we have so much food in the country, and because we have so much cloth, homeless because we have so much building material, and in the whole nation in misery and pain because we have more wealth than any nation of the world—we do seem to be well up in the running for the infernal all-time prize for collective dumbness.

WHAT IS HE DOING THERE?

Hon. Dr. Manion undoubtedly spoke for the common sense and the conscience of the people of Canada when he urged before the Assembly of the League of Nations that the manufacture of armament and munitions should be a business for private parties, seeking to make profits therefrom. Governments should make their own guns and tanks and other paraphernalia.

Human nature being what it is, it would be hard enough to keep peace in this unpeaceful world even if there were not in every leading country groups of powerful men and still more powerful corporations who can fill their coffers by promoting war, keeping nations in suspicion alive, and on occasion actually conspiring together to bring the nations into strife.

But isn't it possible that Canada's Ministry of Railways might be employed at home just now, trying to keep peace on the railway-front in this Dominion? The League has heard all that he said, from other lips, many times, and some one else could have said it quite as effectively at this time. Meanwhile the railwaymen of Canada are taking a very definite position in this time. Meanwhile the railwaymen of Canada are taking a very definite position in this time.

Canada can't wait. The Dominion bureau of statistics estimates that 249,000 persons have found employment in Canada since the first of April last. The basis for the calculation is reports from firms employing five or more men, who have taken on 116,000 hands in the interval, mainly firms engaged in industrial enterprise.

The margin of 133,000 is added to cover the cases of those who have been engaged by non-reporting firms, and those who have found employment in seasonal occupations, such as farming and building operations. To get at the net permanent increase in employment, there must be deducted the number of those who have left jobs since April, including 15,000 Dominion civil servants who have retired and have not been replaced.

There is no word of determining this number, but that it runs to many thousands in the aggregate there can be no doubt in the mind of any one who is familiar with the drift of general business. With the approach of winter seasonal employment will come to a halt, and the farms are already drifting back to the relief camps in Alberta. Taking into account those who have passed out of regular employment, the net gain for the year will be 75,000 more people in Canada in the winter than there were in April.

That would represent a shrinkage of about one-tenth of our unemployed

"army" during the year, at which rate ten years would have to elapse before normal employment conditions were restored.

Any such small-scale recovery as that would wreck the country, Canada could not stand even five years of such leucoré convalescence. Two more of the present "drag," and who in Canada will have anything to say about the future? The only people who will be worth owning, what municipality or province will not be bankrupt—actually better off—after the year of 1930?

Canada's idle men must be got back at work and at wages sufficient to give them a decent living, not in tens of thousands but in hundreds of thousands in the next decade but in the next year, and we are to guard against disaster, private and public.

Two men working at deflated pay cannot continue to support their own families and also a third man and his family. The "wait and see" policy is deadly. Action of some sort must be taken to restore the relief man to the position of a self-dependent taxpayer.

The idea for releasing the Douks and sending them back home is credited to a newspaperman, Mr. E. F. Payne of the Nelson News—who is said to have been "warmly thanked" by the federal and provincial governments for his suggestion. Apparently the B.C. government is trying to clean up the mess before going to its death on November 2nd.

The waste of public money, the breakup of Doukhobor families, the wastage of their farms and the death of a number of their babies following complete starvation, are only bad products of this futile attempt of the Ottawa and Victoria governments to alter the religious convictions of this ignorant and bigoted people by making martyrs of them. They have convinced them of the powerlessness of the police authority to deal with them. They have convinced them more that they are not to be satisfied with the conditions in their supposed persecution. And just as the Canadian relief does have demoralized thousands of people in other parts of the world, so the Doukhobors, as the detention at Piers Island with food and clothing provided for them without effort has changed a number of the Doukhobors from an ignorant and bigoted people to a more intelligent and more self-reliant people. From Piers Island to Nelson recently and turned loose by the police, refused to leave the police station. They had been there for over a year without working, and they didn't want to go back to work. The distracted police had to provide them with meals and clothing.

At the risk of being repetitive, this writer says again, as he said before when the Douks were at Piers Island, that the Douks are a people of unimpaired lands off the coast of northern B.C. and one in the Gulf of Georgia, hundreds of miles away, about 100 miles from the Doukhobors, and therefore rejected by other settlers, where the Doukhobors have been turned loose and permitted to settle the land. This Piers Island penal colony was doomed to failure from the start. It was an expensive piece of folly.

MONTREY
We were not many, but that day—
Before the iron shut that day—
We half a gallant spirit would
Give half his years if he them could
Have been with us at Montreux.

Now here, now there, the shot, it hailed
The drift of battle, the sound of the fight,
Yet not a single soldier quailed
When wounded comrades round them waited
Their dying shout at Montreux.

Through walls of flame its withering way;
Where fell the dead, the living slept
Still charging on the guns which swept

It is a matter of satisfaction that Canada's banks are strong, and that none of them have failed in the extraordinary times of the last four years. But it might be wrong to judge a banking system wholly by its strength. A strong thing can become a monopoly, and the name of monopoly, the vast money-power, that is held to be in the Canadian banking system that is one of the two serious suggestions in the name of banking reform. A banking system must be sound, but it must also be in the general interest. Evidently there is a considerable feeling in Canada that our banking system would be the more general interest if it included a Central bank.

The Passing Show

By J. S. Cooper

After waiting a bit of time and making law administration look ridiculous in the eyes of those it was proposed to reform, the government has decided to close down the Doukhobor "pen" on Piers Island and return the Doukhobors to their homes. They have served less than half of their three-year sentence.

The only person who will benefit is the owner of Piers Island who has had buildings erected on his place, water and electric light systems installed, had a great waste of money and dock erected large enough to berth one of the vessels of the C.P.R. coastal fleet, and who is now using the government for \$40,000 rent. I shall be very pleased to see any amount of similar size to Piers Island for a tenth of that amount. It has a great deal more valuable timber on it than Piers Island, but lacks Piers Island's famous view. The odd thing is that the only valid advantage Piers Island had as a place for the Douks—being able to supply them with the well-dressed Douk should wear—was not made use of.

The idea for releasing the Douks and sending them back home is credited to a newspaperman, Mr. E. F. Payne of the Nelson News—who is said to have been "warmly thanked" by the federal and provincial governments for his suggestion. A Doll And Her

Wardrobe Makes Christmas Gift

IF YOU are thinking of dressing dolls for Christmas presents, why not go all the way and make the dolls yourself? The head and shoulders should be of wood and can be cut out of a piece of wood. A little white face is painted on, and a white or sun-tan stuffed material makes the arms and body. Another piece of stocking cut to fit the head, has a blind, brown or black yarn pulled through to make the wig. Use a crochet hook to do the trick.

Then the wardrobe, as shown here, consists of garters, slip, flow-

ered dress, fur trimmed coat, tam, pyjamas, bathrobe and slippers. You can even make the slippers yourself by using the pattern shown just under the doll in the sketch.

Cardboard or leather from an old

Any pieces you may have from old underwear, negligees or frocks can be utilized to make pretty clothes for dolls, and remember the nearer you can make them to reality, to the clothes of the young lady who owns them, the more popular you will be.

Little girls just love to have dresses for their dolls which im-

itate duplicate their own, and it is smart to have some of a favorite dress for just such a purpose.

HOW TO FIGHT

IRIS BLIGHT

Central Press Garden Expert

Examine iris clumps now. If the

leaf blight has been present dur-

ing the summer you will see many

of the old leaves left as curled

dried remnants about the base of

the leaf stalks. This condition is

more likely to occur with the var-

ieties as King, Lent A, William,

May Queen, New Wells, Will-

iam, Knott, Gypsy Queen, Storm

Cloud, Mary Garden, Lorelei,

Purple King and others. Such sus-

ceptible varieties need a little more

attention in autumn but in any case

a brief examination of the plants

will soon show which ones are not

heavily infected.

Watch for a peculiar flagging or

wilting of the leaves. The tip of the

leaves may turn brown as if the

plants had been watered. If any-

thing is wrong with the roots or

the rhizomes. A little experi-

mental prodding with a stick will

reveal the trouble. The tissues of

the rhizomes will be found to be a

soft, mushy, stinking mass. The

rhizomes are infected with the soft

rot bacteria.

With a rot like this there is but

one thing to do, to save the plants

from complete destruction. Dig up

every clump and sort out all the

comparatively healthy rhizomes,

cutting out the rotted spots in

some. Next every root must be

dusted with sulphur and replanted

in new soil. It does not make any

difference whether the rhizomes

are replanted in the same place

because the sulphur will keep them

out of the roots.

However, all this bother can be

prevented. A sharp sickle or

border knife will quickly remove

the top in fall and with the old

top the danger of this soft rot. So

far as is known no variety of iris

is immune to this trouble.

COAL, STEEL, AND SILK TRADES HIT

Recapitulation Shows Widespread Agitation in Main Industries

NEW YORK, Sept. 29.—A total amounting to 10,000 strikers hampered work in the coal, steel, automobile and silk industries of the United States yesterday.

The thousands of silk workers were idle along the West Virginia "Panhandle" in the Clarksburg district, W. Va., and the Steubenville, O., plants of the Weirton Steel Company shut down because of a dispute between the workers and the management. The employees of Iron, Steel and Tin Workers, George Dunn, president of the Steubenville local of the association, said the company forced them to work more than 40 hours a week in violation of the N.R.A. code.

Pittsburgh officers, who were freed trouble in a third march of workers' cost minimum strike against the Clairton, Pa., plant of the Carnegie Steel Company. More than 7,000 miners were away from the shafts, many of them spreading a strike doctrine northward into Mercer and Venango counties.

At the mines of the Shamrock Coal Company were beaten by strikers in Fayette county, Penn., and two strikers were arrested.

Strikers of the Ford Motor Company shut down the plant at Edgewater, N. J., and held a five-day week, seven hours a day and a \$5 daily minimum wage.

Numerous other minor strikes were in effect.

U. S. LAW DRIVE WIDELY ACTIVE

NEW YORK, Sept. 29.—The United States government's drive against crime pressed forward yesterday as judges and prosecutors continued their efforts on the kidnap racket.

At Baltimore, Tex., federal agents held a man on a charge of giving refuge to George (Machine) Kelly, who is in the United States on a charge of kidnapping. It is the intent of the government, said Attorney General Cummings, to prosecute persons who give aid or comfort to criminals.

And at Oklahoma City, a prosecution of a man charged with aiding a fugitive "the time has come to decide whether or not we will tolerate the payment of law or aid in favor of criminal gangsters."

A bank was killed and a man killed and wounded at Luckey, Ohio, in a battle following the holdup of a bank there. The battle was a battle between the bank and a group of men led by G. R. Saunders of Columbus Grove, Ohio, who was shot by Marshall Ben Stone after Stone was wounded in the leg.

AFRICAN CHIEF NOW REINSTATE

LONDON, Sept. 29.—Chief Takebe of the Bamangwato tribe of Bechuanaland has been reinstated by his majesty from the sentence of banishment from the tribal territory, imposed by acting high commissioner, Admiral E. R. G. Evans.

The sentence, imposed on Takebe, was directed toward a white man on various charges and gave him a 10-year term of imprisonment. South Africa and the native provinces, Takebe, pleading that he had been living like a native and was subject to their laws.

Following the sentence Takebe's mother made an impassioned appeal to the king himself for the reinstatement of the chief.

General Cunningham, who had just arrived, immediately announced that Takebe would be re-instated by the king.

(Phonics Macintosh, a white man, was brought by natives after he had appeared before a native court.)

Takebe has expressed regret for what occurred and assured the high commissioner of South Africa he would work in harmony and high cooperation with the administration.

Death Lurks Within 100 Cauliflower

LOS ANGELES, Sept. 29.—County health inspectors read about 100 heads of cauliflower which they said contained sufficient poison to kill persons eating them. They came from a truck farm which had been quarantined because the farmer had sprayed the vegetable with an "overdose" of insecticide.

BANK PROBERS COMPLETE WORK

OTTAWA, Sept. 29.—The work of the Royal Commission on Banking is finished. With the signing of the final report, Lord Macmillan and his four colleagues bring to a close approximately two months intensive labor.

Lord Macmillan and Sir Charles D'Arrol, who headed the commission, are expected to go to Kingston where Queen's University will honor them with degrees. Then they will proceed to Quebec and board the boat for Montreal, then to Toronto and Montreal respectively.

Already, though the report is not yet complete, certain additional facts and appendices remain to be included, conjecture is heard as to recommendations.

Recommendation for the creation of a central bank in Canada is expected to be implemented. Should the report contain such a recommendation, it will be implementing a demand from certain sections of Canada, particularly the prairie west.

Federalists claim that the report will be available shortly before the opening of parliament. If it will, it is expected to form the basis for revision of the Bank Act.

Grain Market Collapse

By R. T. Elliott, R.C., 1150 St. James Ave., Victoria, B.C.

In the accompanying article Mr. Elliott reviews the position of grain marketing in Canada and offers suggestions for the future. He says the threat of enforcement of trade by the United States is a real one, and that it is a serious matter for Canada which must take action.

Prohibitive Tariff Will Menace Canadian Trading

foreign imports for the time being, after imposing a duty of nearly 200 per cent. at various times. It is a per cent. duty, over which the duty is also 200 per cent. Germany has a 2 per cent. duty which the duty is 200 per cent. so it is not surprising to find food wheat raised four times the price it should be.

THE GRAIN CONFERENCE

In the grain marketing was primarily responsible for the collapse of international trade. It is high time we all sat down and gave serious thought to this matter. THE FALL IN CEREAL SHIPMENTS

This column brings an expert opinion has also gathered a little from other sources. Mr. F. W. G. Urquhart thinks grain prices are falling. He thinks that good and services they are willing to accept in exchange for their products. Perhaps it is right, but before proceeding further let me give a few statistics regarding grain shipments.

LAMSON CASE CORONER JURY IS "EVASIVE"

Although Sentence Passed Panel Returns Technical Verdict

SAN JOSE, Calif., Sept. 29.—Despite the conviction of David Lamson, former resident of Red Deer, Alta., of wife murder, a coroner jury here yesterday returned an open verdict after an inquiry into the death of the woman in her home here last May 30.

Lamson, under sentence to be hanged December 13, did not attend, although Maurice Rankin, one of his attorneys, was present. Rankin asserted the verdict was a victory for the defense in that it did not declare Lamson responsible for the death. An appeal of the conviction is being taken.

CLOSE IS HEAVY IN WALL STREET STOCK TRADING

NEW YORK, Sept. 20.—The stock market ran into difficulties today, following a drive on American Telephone and many equities which were seen in the early hours more than cancelled their gains in a last-hour selling drive.
 At the close, the market showed a net loss of 1.14 points, with the Dow Jones Industrial Average at 271.14.
 The market was characterized by a sharp decline in the early hours, followed by a recovery in the afternoon. The decline was particularly pronounced in the American Telephone and Telegraph stock, which fell 1.14 points. Other stocks, including the Standard Oil of New York, also experienced significant losses.
 The market's volatility was attributed to a combination of factors, including a general decline in investor confidence and a lack of new investment orders. The selling drive in the afternoon was particularly intense, leading to a sharp drop in the Dow Jones Industrial Average.
 Despite the losses, some sectors of the market showed signs of resilience. For example, the steel industry and certain utility stocks managed to hold their ground. However, the overall sentiment remained bearish, with many investors looking for a more stable market environment.
 The closing prices for some of the major stocks were as follows:
 American Telephone and Telegraph: 271.14
 Standard Oil of New York: 270.14
 General Electric: 269.14
 Westinghouse Electric: 268.14
 Pullman Standard: 267.14
 The market's performance today was a stark contrast to the previous day's gains, highlighting the volatility of the stock market during this period.

their advances. The stock was rather heavy. Transfers approximated \$200,000 shares.

Stocks were quite cheerful in the early hours when most categories improved under the leadership of the Alcohols and Meats. For a while the activity was promising, but funding soon died down to a dribble and many

inaugural gains were pored or eliminated. The utilities lagged throughout. Operators for the advance exhibited renewed caution as inflationary uncertainties persisted. Administrative clarification of monetary and other problems was awaited hopefully in financial circles. Grains, cotton and other commodities were fairly steady. Some-

were mixed. The dollar dipped and rallied moderately in foreign exchange dealings.

National Distillers shares, which were "tax"-whiskey dividend valued at \$9 today instead of Monday because of the new two-day delivery rule, got up about 4 points at one time, but yielded half of this. U.S. Smelters showed an advance of about 4 after

an extreme gain of 8. Others up fractionally to around a point included Dome, Mines, Homestake, McIntyre, Porcupine, Alaska Juneau, American Smelting, U.S. Industrial Alcohol, American Commercial Alcohol, Union Pacific, General Motors, Chrysler, U.S. Steel preferred, Standard Oil of California and New Jersey and Johnsonville.

THREE MAJOR LEAGUE ACES OUTSTANDING

Cronin, Hubbell and Klein Feature in All-Star Baseball Vote

By ALAN GOULD
Associated Press Sports Writer
NEW YORK, Sept. 29.—The outstanding three major league players of the year, on the basis of total returns in the Associated Press all-star poll, are manager Joe Cronin of Washington Senators, Southpaw Carl Hubbell of New York Giants and slugging Chuck Klein of the Phillies.

They dominate the balloting by margins of 80 and 75. In the total of 10 votes cast, Cronin is named by 88 for the all-star shortstop role, Hubbell by 84 for the No. 1 pitching position and Klein by 71 for the post of duty in right field, where he no longer is in the Phils' lineup.

ONE YANKEE PLACED
The panning of Ruth from the all-star picture, with only three votes, is on behalf for old time's sake. It is one of the year's outstanding developments, along with the fact that only one Yankee, catcher Bill Dickey, wins a place in the lineup.

Seven American leaguers and five National league stars make up the first team in the Associated Press consensus. The pennant-winning Giants and Senators each place two men.

Hubbell's battery-mate, Gus Mancuso, squares into the second backstop job by a narrow voting margin over Mickey Cochrane of the Athletics and Virgil Davis of the Phillies.

At first base, the great Jimmie Foxx, powerhouse of the Athletics, comes off a 3-0 vote margin over George in the voting. Bill Terry of the Giants, placed second.

Apparently on the strength of his harder hitting this year, Charley Gehringer, of the Tigers, had a 2-to-1 edge over Frankie Frisch, Cardinals manager, for second base position.

Cronin was voted into shortstop position. Pe Traynor, the Pirates veteran, won over a National league rival, Pepper Martin, at third, although the Pepper's showing is a remarkable tribute to his performance in his first season at that position.

The outfield of Al Simmons, of the White Sox, Wally Berger of the Braves and Klein proved safe for the experts. No one else was given credit to this.

Similarity the selection of Lefty Grove of the A's, as the pitching man of Hubbell and Klein, was decisive. The old fireballer of the White Elephants is still conceded to

Pro Hockey Chief Former Reginald

REGINA, Sept. 29.—Gordon Leitch, president of the newly formed Northwestern Professional Ice Hockey League, now practicing medicine at Portland, Ore., is a former resident of Regina, where he is a prominent member of the local club.

He played considerable hockey in Regina and also in Europe, where he continued his medical studies. He also played hockey in northern China, from where he returned two years ago after being engaged in the Rockefeller Foundation.

He is a son of Rev. H. D. Leitch, formerly United church minister here.

BATTLES TO MEET LOGAN ON SATURDAY
Star Dairy Scene of Big Battle as MacMasters Seeks Revenge

Fight fans will see their old favorites, "Hearties" Harold MacMasters, the unknown underdog and "Slashing Sam" Logan, Alberta Assassin, square off for a 10-round bout at the Star Dairy on Saturday night starting at 8:30 o'clock.

This match, it is expected, will definitely decide just who really is the champion between the two, each having a strong following of the ring. The "Butler" is said to be the better fighter for the fight and is under the management of Pete McManis, a big time promoter.

MacMasters' battle-mate, Gus Mancuso, squares into the second backstop job by a narrow voting margin over Mickey Cochrane of the Athletics and Virgil Davis of the Phillies.

At first base, the great Jimmie Foxx, powerhouse of the Athletics, comes off a 3-0 vote margin over George in the voting. Bill Terry of the Giants, placed second.

TERRY HAS WAY OF GETTING MOST OF FINANCIAL WANTS
Giant Manager Laughs at McGraw's First Offer For Contract

This is the fourth of six stories on the career of Bill Terry, by Daniel M. Daniel, New York World-Telegram staff writer.

NEW YORK, Sept. 29.—Memphis Bill Terry, manager of the champion Giants, signed with that club in the spring of 1922, and has been a part of getting what he has wanted financially ever since.

From the first, Terry demonstrated that he was not swayed by the thought of the baseball rights to Terry from Elberfeld of the Little Rock club of the Southern League.

The plot of the New York version to Terry, asking him to see him when the Giants came to Memphis on their way from the Florida training camp to the Polo Grounds.

HAS FIRST VISIT
"It was a sunny Saturday morning in April when I visited McGraw in his home in Memphis," Terry related the other day.

"Mac said he had heard some interesting reports about my baseball ability and wanted me to sign with the Giants."

"What do you offer?" I asked. "The old man said something about \$50,000, and I laughed. 'I picked up my hat and said, 'You don't seem to be very anxious to sign me, Mr. McGraw. I've got a fine job here with a business future. I have a home here, a family. I don't want to go bounding around in Pullman making you make it worth my while.'"

Great Battles Scheduled for Saturday as Clubs Are Bunched

LONDON, Sept. 29.—A wholesale shuffle in leadership of the first division of the English soccer league may result from Saturday's battle when the closely-ranked eleven mix it up. Portsmouth, sharing leadership with Blackburn Rovers, have a tough nut to crack when they entertain Aston Villa.

Arsonal, league champions who were only two and drawn three matches out of seven, expect to get closer to the top at the expense of Middleborough. Arsenal, however, will likely be without the services of Robert international who was injured in Wednesday's friendly match with the Glasgow Rangers.

Second division leadership is even more tangled than the first and may remain so after Saturday, for none of the four teams sharing the top rung meet. Port Vale, however, ranking first on goal average, travel to Nottingham who are only a point behind the leading quartette. Two of the three other leaders go after Saturday.
